<i>Record of Decision and Resource Management Plan for the Winnemucca District Planning Area, May 2015</i>	NTL	<b>NV-WD-PALEO-01</b> <b>Protection of Potential Fossil Yield Classification (PFYC) 1 and 2: Very Low/Low Potential</b> This area has low potential for vertebrate paleontological resources. This area may contain vertebrate paleontological resources. In the event that previously undiscovered paleontological resources are discovered in the performance of any surface disturbing activities, the item(s) or condition(s) will be left intact and immediately brought to the attention of the authorized officer of the BLM. If fossils are discovered, avoidance or data recovery will be required prior to their disturbance if they are deemed to be of scientific importance. Surface restrictions may be applied to surface disturbing activities.	Notice to lessee applies to the following lands:  T.0220N, R.0270E, 21 MDM, NV Sec. 020 SWSENE, SESENE, NESESW, SESESW, NENWSE, SWNWSE, SENWSE, NESE, SWSE, SESE,
